Education

In-Progress **PhD Candidate - Educational Studies**, *Brock University*, St. Catharines ON.

2017 **Master of Computer Science**, *Brock University*, St. Catharines ON, Recipient of **Distinguished Graduate Student Award**. Thesis: Elliptic Curve Cryptography using Computational Intelligence.
`http://hdl.handle.net/10464/12832`

2006 **Masters of Library and Information Science**, *University of Western Ontario*, London ON.

2003 **Honors Bachelor of Science Computer Science**, *University of Western Ontario*, London ON.
Minor in Philosophy

Work Experience

Professional

January 2025 – Current **Scholarly Publishing and Platforms Librarian**, Brock University, St Catharines ON.
Responsible for scholarly communication projects and support for open scholarly infrastructure for researchers and scholars at Brock University. Administrator of the Brock University Digital Repository `https://brocku.scholaris.ca`, Brock University Borelis `https://borealisdata.ca/dataverse/brock`, and technical contact for Scholarly Journal @ Brock University `http://journals.library.brocku.ca`.

Obtained rank of Librarian IV December 1, 2021.

January 2022 – January 2025 **Digital Scholarship Librarian**, Brock University, St Catharines ON.
Responsible for the development and delivery of services and content for the Brock University Digital Scholarship Lab and working on grant funded projects.

June 2006 – June 2018 **Digital Services / Liaison Librarian**, Brock University, St Catharines ON.
Duties include development of web tools and services. Ensuring continual access to a collection of approximately 80,000 electronic resources. Responsible for assessing point of failure situations with end users and for staff training in areas of developing technologies. Developing software and creating additional functionality for web-based services. Responsible for collection development, and research support, for Computer Science and Philosophy Departments.

Secondments

July 2018 – December 2021 **Acting Head, Map, Data, GIS Library/Digital Scholarship Lab**, Brock University, St Catharines ON.
Duties included supervision of 5 staff members and daily activity of branch library. Alongside cross campus team bootstrapping the creation of the Brock University Digital Scholarship Lab.

July 2014 – August 2015 **Acting Head, Library Systems and Technologies**, Brock University, St Catharines ON.
A limited-term secondment. Duties include supervising daily activities of 5 staff members and 1 contract student position. Representative to other staff groups within the Library. Making decisions on the future developments of infrastructure, drafting policy and strategic planning documents. Postponed sabbatical to fill this appointment.

Pre-Professional

May 2005 – April 2006 **Library Assistant III**, Taylor Library, University of Western Ontario, London ON.
Responsible for Reserve Collection and staffing Reference Desk.

September 2005 – April 2005 **MLIS Internship**, Taylor Library, University of Western Ontario, London ON.
Responsible for operation of the 'Get It' system and numerous instructional initiatives. Front line contact person when technical problem developed with the OpenURL resolver.

Teaching

Ongoing **AI and Libraries, for Skeptics**, *Library Juice Academy*, Online.
`https://libraryjuiceacademy.com/shop/course/331-ai-and-libraries-for-skeptics/`

Ongoing **Python for Librarians**, *Library Juice Academy*, Online.
`https://libraryjuiceacademy.com/shop/course/270-python-for-librarians/`

Ongoing **Advanced Python for Librarians**, *Library Juice Academy*, Online.
`https://libraryjuiceacademy.com/shop/course/355-advanced-python-for-librarians/`

2021 **COSC 3P32 - Introduction to Database Systems**, *Department of Computer Science. Brock University*, St. Catharines ON, January - May.

2007 **COSC 2P14 - Introduction to Operating Systems**, *Department of Computer Science. Brock University*, St. Catharines ON, January - May.

2006-11-02 Eastern Canada Innovation Users Group Annual Conference. Kitchener ON.

Professional Organizations

- Ontario Library Association
- Canadian Association of Professional Academic Librarians

Computer Skills

Shared Code

Github.
Most code projects shared via `https://github.com/elibtronic/`

Languages

Python.
Skills include data analysis, visualizations, and metadata conversion. Extensive experience with Distributed Evolutionary Algorithm in Python `https://deap.readthedocs.org/en/master/`

PHP.
Skills include using PHP as a web content system and processing XML data. Using PHP to add functionality and extending modules of popular web based applications.

AJAX & Javascript.
Skills include utilizing Java to create asynchronous web-applications based on the AJAX platform. Using Javascript to create interactive additions to websites. Working knowledge of JQuery and jQuery Mobile.

XSLT & HTML.
Skills include manipulating CSS, form processing, manipulating rendered pages with DOM directives, and creating mobile suitable displays of existing sites, generating crosswalks.

System Knowledge

Linux.
Advanced knowledge of Debian/Ubuntu distribution. Completed Linux Software Foundation "Introduction to Linux System Administration" training course.

Database Management Systems.
Skills include manipulation and creation of relational databases (MySQL, PostgreSQL) and document storage databases (MongoDB, CouchDB) for usage in web-based and data collection projects.

Docker.
Able to deploy / create docker containers using Portainer web-interface and via desktop deployment. Some experience with deploying services to Azure.

Jupyter and Computational Notebooks.
Skills include development of workshop material, analysis, and standalone self-driven technical instruction.

Select Projects & Software Skills

APC Waiver and Discount Viewer, `https://brock-apc-info.streamlit.app/`.
A site that shows publisher and journal level details about what article processing charge waivers and discounts available to members of the Brock community. Data is drawn from Google Sheets and platform is built with Streamlit.

AI in Libraries Database, `https://elibtronic.github.io/AIL_Database`.
Collaborative capstone database project created by graduating students from *AI and Libraries for Skeptics*, from Library Juice Academy.

All Our Yesterdays Toolkit, `https://brockdsl.github.io/AOYTK`.
Project website that chronicles the outcome of multi-year Carnegie Mellon funded project called *Archiving the Web*

Crisis Communication in Niagara, `https://brockdsl.github.io/archives_unleashed`.
Library Specific data visualization platform built using Google Apps and D3.

Supported Library Specific Systems

DSpace, `http://brocku.scholaris.ca`.
The D-Space is the platform of the Brock University Digital Repository which contains a vast collection of electronic theses digitized documents of interest to the Brock community. Have been using the product since 2007 and have submitted bug fixes and code enhancements to the D-Space community

Open Journal System, `http://brock.scholarsportal.info/journals`.
The Open Journal Systems is the open source platform that allows for the publication of peer-reviewed journal content. I am currently the administration for the Brock University instance of the software and am responsible for the operation of 11 hosted journals found on that site.

Dataverse, `https://borealisdata.ca/`.
The Borealis service provided by Scholars Portal is a platform for the sharing and distribution of datasets in the service of reproducibility and open science. My role with the platform is to create and enforcement submission guidelines.
